

3Shape Clear Aligner Studio 2021

Introducing many new features for increased efficiency

3Shape Clear Aligner Studio 2021 is now available and includes several new features to aid lab to clinic communication and increase automation.

The new features are available to all customers with an active licence of:

- Clear Aligner Studio (for clinics)¹
- Clear Aligner Studio (for labs)
- Orthosystem Premium

Users will enjoy the following features and 750 CAD points as part of their annual subscription:

- Treatment Review Portal²
- Automated Segmentation^{2,3}
- Automated model hollowing²
- Automated undercut block-out²
- Trim line and ID export^{2,4,5}
- Aligner trimming fixture attachments^{2,4,5}
- New Patient database interface
- Export in background functionality

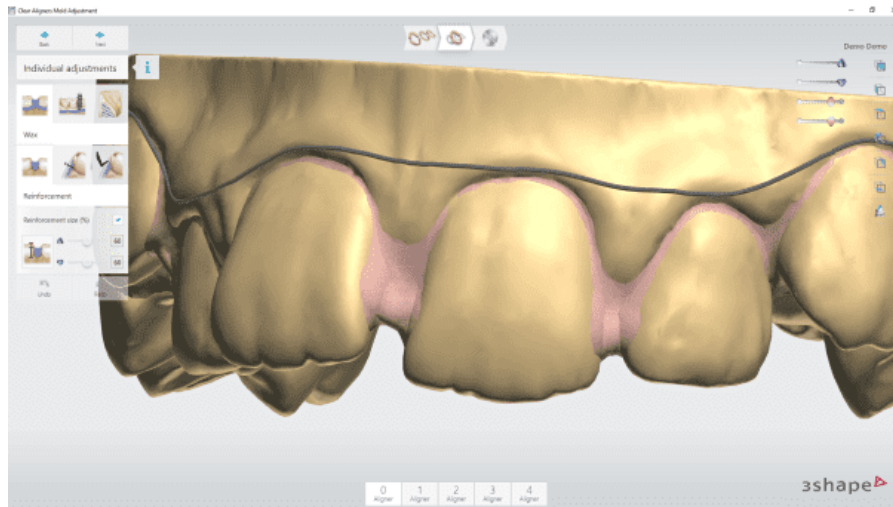

Further details about the new software features is available via:

www.3shape.com/en-us/software-updates/ortho-system

1. Clear Aligner Studio for Clinics includes a two user licence. This version does not include some features (3)
2. Use of any of these features will incur a cost of one CAD point per exported model (i.e. an aligner case with 10 aligners on the upper arch and 10 on the lower arch will cost 20 CAD Points)
3. Automated Segmentation does not consider tooth width measurements and these must be completed manually for analysis functions etc.
4. These features are not available with Clear Aligner Studio for Clinics
5. Trim line and ID export will require specific interface with trimming / marking equipment. Please verify with trimming / marking equipment manufacturer.

A new pay per use model

Only pay when the clinician accepts the treatment

CAD Points is a new pay-per-use model where you only pay for specific features when you use them and only when you export models, meaning you only pay when you are proceeding with treatment allowing you to control your efficiency and expenditure.

Customers with an active licence of Clear Aligner Studio or Orthosystem Premium will get 750 CAD points as part of their annual subscription and can purchase more directly from ESM in the following quantities:

CAD Points	Price per CAD Point (inc VAT @20%)	Price per CAD Point (inc VAT @20%)
CAD Points x 100	£132.00	£1.32
CAD Points x 200	£264.00	£1.32
CAD Points x 500	£660.00	£1.32
CAD Points x 1000 (inc 10% disc)	£1,188.00	£1.19
CAD Points x 2000 (inc 20% disc)	£2,112.00	£1.06

Please be aware of when you are utilising these new features and when you are exporting cases, CAD points are automatically deducted and we are unable to refund CAD points that are used in error.

How to purchase CAD points.

Simply email the quantity of CAD points you require along with your dongle number to orders@esmdigitalsolutions.com and we will aim to process your order within 4 hours. Please be advised that our support team are unable to provide additional CAD points.

Some Technical Notes:

It is no longer possible to regenerate an SQL database from the Orthodata folder so it is critical that users updating to OrthoSystem2021 have an SQL backup facility in place in addition to backing up of the Orthodata folder. Cases completed in Orthosystem 2021 are not backward compatible with older versions of the software.
